Full Stack Developer

React.js – Express.js – Node.js – MongoDB – TailwindCSS – CSS – JWT –

Responsive Web Design – Search Engine Optimization – Problem Solving

Summary

A passionate Full Stack Developer with hands-on experience building responsive and user-friendly websites. Skilled in writing clean code, solving technical problems, and making sure websites work well on all devices. With a proven ability to handle project challenges and find practical solutions, I focus on delivering strong user experience and high design quality.

Extensive knowledge in Git and GitHub for version control and working with teams, and improving websites for better speed and search engine visibility. Looking to join a team as a Full Stack Developer and help build successful web projects.

Key Competencies

Fullstack – Frontend – Backend – Problem Solving – Data Structures & Algorithms – Responsive Design – Version Control System (Git, Github) – Clean Code Practices – Search Engine Optimization – Critical Thinking – Team Collaboration – RESTful API Integration

Professional Experience

Bitwise Club, Lebanon

Mar. 2025 – Present

Website Manager

Bitwise Club, founded in 2024 by Master 1 students, focuses on building both **practical and theoretical** skills through **hands-on activities** and **collaborative learning**. We cover a range of fields helping members gain **real-world experience**.

- **Built and deployed** a responsive website for the club, increasing club visibility and helping over **100+ students** access resources, event schedules, and news updates.
- Collaborated with **team members** to design an intuitive user interface by choosing **theme, fonts, images**.
- Helped organize and plan **2 club events**, contributing to **logistics, idea development** and **team decision-making**.

Projects

BitwiseClub Website – [Live Site](#) Reactjs,

Mar. 2025 – Present

TailwindCSS, Expressjs, MongoDB, JWT

- **Developed** a full stack web application for the Bitwise Club to showcase club details, and announce events.
- **Built** a responsive user interface optimized for both desktop and mobile devices.
- **Implemented** an admin panel to manage site content efficiently.

TestGenerator Website – [Live Site](#) Reactjs,

July. 2024 – Feb 2025

TailwindCSS, Expressjs, MongoDB, JWT

- **Enabled** users to easily create custom tests tailored to their selected subject or field with minimal effort.
- **Integrated** API to automatically generate tests, also providing an option for manual question entry.

Education

Bachelor of Computer Science (CS) | Lebanese University

Sep. 2024 – Present
